

# CDL SECURITY ALARMS & CAMERAS

RAILROAD/INDUSTRIAL SOLUTIONS

It began in 1964, providing electrical services for residents and businesses around Pittsburg, Kansas. A few years later, we began maintaining and installing Highway Grade Crossing Signal Warning Systems and providing electrical services for companies in the short line railroad business. Since that time, CDL-Electric has expanded our customer base in the railroad industry by providing signal installation and maintenance, radio communications, signage, decals and yard security. CDL provides solutions for a variety of railroad companies and industrial facilities throughout the country. Let us provide a solution for you!
